"It doesn't make sense, You're flying at 500 mph, 30,000 feet in the air, and the pilot tells you to feel free to roam around the plane. But when you're on the ground taxiing to the gate at one mph., he tells you to remain seated for your own safety."

Freecycle.org is an online network where people can give away or find free stuff in their local neighborhoods. A great way to recycle items. Earth911.com is also a directory of local re-use and recycling options. Reusing items from your neighbors wastes no energy and builds a sense of community.

RLC is actively into recycling!
